Packaging Legislation Status Reports

This service provides EUROPEN members with information on EU and national packaging and packaging waste legislation, industry activity and compliance schemes in Europe.

EUROPEN Status Reports are updated regularly and are available for download under the following headings:

**EC Directive on Packaging and Packaging Waste**

**Marking issues**
- Packaging Data
- Review of the Directive and earlier studies
- Special measures for particular pack types
- The Directive and amendments
- The Essential Requirements and the CEN standards

**National policy:**
- National Legislation and Public Policy – country example of index page attached
- National Beverage Containers Policy – country example of index page attached
- National Recovery and Recycling Organisations (structure, fees, activities) – country example of index page attached

**Directory of Recovery Organisations and Deposit Systems:**
- National Compliance Systems and Deposit Systems

It also includes a Legislation Database which contains national legislation in the original language and (where available) in English translation. It also contains texts of relevant EU Directives, Regulations and Decisions.

Reports can be filtered by country and by subject area.
## TABLE OF CONTENTS

The Packaging Ordinance as amended .............................................................. 3
  Basic definitions of packaging ........................................................................ 3
  The targets ........................................................................................................ 4
  The obligations for sales packaging ................................................................. 5
  Requirements for submission of sales packaging data ....................................... 8
  DIHK reports on the sales data submitted ....................................................... 9
  Operational requirements for dual systems and branch solutions ................... 11
  Sales packaging with hazardous contents ....................................................... 12
  Mandatory deposits ....................................................................................... 12
  The obligations for secondary and transport packaging ................................ 13
  Biodegradable plastics packaging .................................................................. 13
  The Essential Requirements and heavy metal limits ........................................ 14
  Marking rules ................................................................................................. 14

The beverage container provisions of the Packaging Ordinance .................... 14
